Pinnacle SL600-HD

A little extra support can go a long way. Harmar offers the SL600HD, the highest weight-bearing capacity in the industry. Capable of transporting up to 600 lb, the heavy-duty lift is designed with a high-backed and padded seat to ensure a comfortable ride.

Lifting Capacity: 600 lb

Seat Backrest: 17.6" x 17"

Seat Bottom: 18.5" x 14"

Folded Width: 16.5" from wall

Track Length: 15'6" to 40'

To accompany the plush seat, the SL600HD was manufactured to offer extra support with stationary armrests, an extra-wide seat, and reinforced seat support.

"I was so worried I wouldn't find a lift that could accommodate my mom's weight. Until we found a dealer who knew about this HD seat, I thought she was sunk, sleeping in her living room. Now, she can get up and down from her bedroom and I don't have to worry about her messing up her back sleeping on the couch."
